

Declaration of the Schiller Institute

Stop the United Nations'

The one-worldists who run the United Nations are in the final stages of preparing for a major international conference on population, which is scheduled to take place in Cairo, Egypt this September.

The goal of the International Conference on Population and Development (I.C.P.D.) (as it is formally titled), is to set the stage for an intensified campaign to drastically reduce population levels, especially in the developing sector. The Cairo conference is also designed to further consolidate the United Nations' emergence as a global government, a new Roman imperium that will rule with savage brutality over the shards of former nation-states, reducing their populations to the level of animals.

The I.C.P.D. is based on the same contempt for human life that drove Hitler's extermination camps. Its fundamental premise, namely, that the world has a finite "carrying capacity" (an idea first developed by the eighteenth-century Venetian Giammaria Ortes and popularized by Great Britain's Thomas Malthus) which can only support a limited number of people, has absolutely no scientific basis; yet the implementation of this fraud means that billions of people must die to meet the U.N.'s population goals.

The Cairo conference seeks to destroy the institution of the family, the foundation of human society, under the guise of sexual freedom and "women's empowerment." It aims to slash population growth rates to zero over the next decades through the rampant spread of abortion, sterilization, and euthanasia. And it proposes to meet the developing sector's desperate need for economic development by cynically foisting the hoax of "sustainable development"—an economic model whose sole purpose is to suppress the industrial and agricultural development necessary for supporting life.

Leaders Voice Opposition

- **Pope John Paul II** has stated publicly that he has "grave concerns" about Cairo, and has warned that "what is at stake" at the conference "is the very future of humanity."

The Pontiff has charged that "certain basic ethical

principles," including respect for the rights of the unborn and the importance of the family, are "contradicted" by the proposals put forth in the program that has been drafted by the U.N. bureaucracy, and that the conference's Malthusian premises jeopardize the "very future of humanity." "There is reason to fear," he has said, "that [Cairo] could cause a moral decline resulting in a serious setback for humanity, one in which man himself would be the first victim."

- **The African Academy of Sciences** has also challenged the Cairo event, asserting that, "For Africa, population remains an important resource for development, without which the continent's national resources will remain latent and unexplored." Infertility, not overpopulation, "is a major problem."

- From the United States, economist **Lyndon H. LaRouche, Jr.**, who has repeatedly demonstrated in such locations as the book *There Are No Limits To Growth*, that Malthusianism is a fraud and that the claim that there are too many people in the world represents the worst kind of unscientific quackery, has also raised his voice against Cairo.

"There is no difference between those in the U.N. who are convening and supporting this population conference, and Adolf Hitler," he has asserted. "If the Cairo conference were to succeed, the family as we know it around the world, would be dead as a protected institution. You cannot be for the family, and tolerate the Cairo conference."

- **Helga Zepp-LaRouche**, founder of the Schiller Institute, has said, "If the sanctity of each individual life is not upheld as the most precious gift of mankind, then humanity is finished. Never has this been more obvious than in the horrible holocaust being conducted now in Bosnia. If this is not reversed, then the fate of mankind as a whole will be that of Vukovar, Sarajevo, and Gorazde. Therefore, this conference must be stopped, and instead, a gigantic battle for the sanctity of life must be waged. I call on all human beings of good will to join this battle right now. Mankind's existence, both physically and morally, is at stake."

Killer Conference!

Shut Down Cairo!

Since the very nature of the Cairo meeting is inimical to the welfare of the human race, it is essential that it not be allowed to occur. As Pope John Paul II rightly stressed, Cairo represents a direct threat to the continued existence of mankind.

All individuals and institutions who uphold the principle of the sacredness of human life must rally to shut down the I.C.P.D.! The Egyptian government, which is hosting the conference, must be convinced to withdraw its invitation.

What humanity desperately needs at this critical juncture is an ecumenical alliance that will defend human life—which is under assault from all sides—and that will force governments to institute the kinds of economic and social policies required to support increasing numbers of people at an improving standard of living.

An international conference on the dignity of man, which would bring together people of good will who wish to fight for a better future for humanity, would provide an excellent starting point for reversing the culture of death which has gripped our institutions. The serpent's head of neo-Malthusianism and "free market" economics must be crushed once and for all. Instead, we must build societies based on the principle that man is made in the image of God, and that each child born into this world is a gift, whose unlimited potential for good must be nurtured.

The World Needs More People

It must be recognized that the starvation, illness, conflict, and despair that are all too common in our world, are not the consequence of "overpopulation," as the neo-Malthusians behind Cairo would have us believe. Nor are they inevitable.

They stem in large part from deliberate decisions made by people—not some depersonalized, disembodied "market forces." For example, the structural adjustment policies of the International Monetary Fund and World Bank have wreaked havoc, especially in the Third World and the former Soviet sphere, destroying the basis for productive activity, and there-

by creating an apparent "overpopulation" crisis. And the orgy of speculation which has dominated the world economy over the past two decades and brought it to the brink of total collapse, was not the work of an "invisible hand," but the conscious policy of international financial networks.

In reality, despite endless amounts of propaganda to the contrary, there is no "overpopulation" problem. The history of man's development has depended on both increases in his numbers, and increases in his power over nature. Those who propose to reduce the world's population by billions are actually proposing to send humanity back to the Stone Age.

The world actually faces a massive depopulation crisis in the immediate future, as the direct result of the anti-natalist campaigns of the last twenty years. This holds as true for many countries in Africa—which are supposedly the most overpopulated, but where, in fact, population density is far less than in Europe—as it does for the industrialized countries and the former Soviet sphere, where the lack of children has created a demographic imbalance that is driving the crusade for mass murder of the elderly.

New World Empire

The Cairo event must be stopped not simply because of its anti-family, anti-population orientation. It must also be stopped because it is part and parcel of a larger game-plan to make the United Nations the centerpiece of a new world empire, run by the ancient, evil oligarchical families of Venice and their British partners.

Lyndon LaRouche has situated the Cairo meeting in the context of a shift in overall U.N. policy that began in 1982. "We are actually moving into a phase where we can say that there is *virtually* a United Nations World Empire," said LaRouche. "We now have a United Nations which is moving closer and closer to what people like Bertrand Russell and H.G. Wells and so forth . . . wanted back in the beginning . . . a United Nations world dictatorship."

conference, typifies the type of morally deformed individual set to administer this "brave new world." He comes from a wealthy Egyptian Coptic family whose intimate ties with British imperialism extend back to his grandfather, Boutros Pasha, who signed the Anglo-Egyptian treaty of 1899 that formally established British rule over Egypt and Sudan. Clearly, Boutros-Ghali is no stranger to imperialist designs, and has proved himself a willing implementer of U.N. genocide during his tenure in office, as the case of Bosnia attests.

'Culling the Human Herd'

Under this U.N. dictatorship, the nation-state will disappear, and the world will be turned into one large "game park," in which "park rangers"—in the person of U.N. blue helmets—will cull out the "undesirable" and "excess" populations from the "human herd." This is the real content of the U.N.'s "family planning for all" crusade that is supposed to be endorsed at Cairo. The U.N. has already put this plan into action in select areas of the world, such as Bosnia, where U.N. forces—and Boutros-Ghali himself—have been bitterly denounced as Nazis for their despicable complicity in the genocidal destruction of the Bosnian people.

How the "park ranger" concept would work was publicly articulated by the late Gen. William Draper, a family friend of former President George Bush (himself an ardent advocate of U.N. imperialism and racist population control) and his father, Prescott Bush, who, as a Wall Street financier based at the Harriman family's investment house in the 1930's, personally helped to ensconce Adolf Hitler in power in Germany.

In a 1971 article, Draper likened the developing nations to an "animal reserve" where, when the animals become too numerous, the park rangers "arbitrarily reduce one or another species as necessary to preserve the balanced environment for all other animals." "But who will be the *park ranger for the human race?*" Draper asked. "Who will cull out the surplus in this country or that country when the pressure of too many people and too few resources increases beyond endurance?" One need search no further than the United Nations for the answer to that question!

Global Eugenics

This grouping—the Bushes, Drapers, Harrimans, *et al.*—were all deeply involved in the eugenics movement of the 1920's and 1930's, which served as a precursor to the Nazis' extermination program. Indeed, at the Third International Conference on Eugenics, which took place in New York City in 1932 under the Harriman and Draper families' auspices, Dr. Ernst Rudin, a German race "scientist" who later went on to write Hitler's racial laws, was elected permanent president of the conference's sponsor, the International Federation of Eugenic Organizations.

If it is allowed to take place, the Cairo event will serve *de facto* as an update of the 1932 eugenics conference, ushering in a new era of deliberate, global depopulation which will far surpass in savagery even the wildest dreams of Adolph Hitler.

The Schiller Institute is seeking support for its campaign to shut down the Cairo conference. Please circulate this statement, and return all signatures to: Schiller Institute, P.O. Box 20244, Washington, D.C. 20041-0244.
